

Website building: basics

Intro to HTML - Star - Learn about lists

The following exercise contains the following subjects:

- HTML

Question

Create 2 lists.

The first one should have a bold italic and underlined title, and the text should be blue.

The second one will have numbers instead of bullets and the text should be red.

Your lists should look like this:

First List

- chocolate
- milk
- sugar

Second List

1. chocolate
2. milk
3. sugar

Now create a third list that has an icon instead of bullets or numbers.

Use a native solution - you're not supposed to use external libraries.
