

# Website building: basics

Intro to HTML - Star - Webpage with links

---

The following exercise contains the following subjects:

- HTML

## Question

Create a webpage with links to important websites, so that every bookmark would lead to a different page. Make sure they open in different tabs.

1. News - ynet.co.il
2. Youtube - youtube.com
3. Facebook – Facebook.com

Make sure to design it in a nice looking manner (hint: explore the padding properties)

## My Bookmarks
