Debugging

Debug - Star - Find Smallest

The following exercise contains the following subjects:

- o Javascript

 # Note: We ask you not to solve the bug by finding it with your eyes but to use the debugging tools we've learned!

Question

What is wrong with this code?

1. Find the bugs in the code.
2. Which debug method did you use to find the bug?
3. Explain the bugs in your own words.
4. Fix the code and submit it all.

```javascript
function findSmallest(a, b, c){

    if (a > b > c){

        return c;

    } else if (a > c > b) {

        return a;

    } else {

        return b;

    }
}

findSmalest(52,66, 2);
```
