Intro to jQuery - Star - add class

_____

The following exercise contains the following subjects:
- o   jQuery - selectors, DOM manipulations

Question

In css, add the following class:

```css
.some-container{
    font-size: 25px;
}
```

Using jQuery, create a web page with the following code:

```html
<div>
    Some text
</div>
<div>
    Some other text
</div>
```

After 5 seconds of the document.ready event, add the .some-container class to all the <div>s in the document.
